PROJECT DIRECTORY DOCUMENTATION

ML with Python — Python Learning Repository

D:\ML with Python\Python

Generated: April 27, 2026

Overview

This document provides a complete, structured reference of all files and folders found in the Python learning repository. The repository is organized into 12 chapters covering Python fundamentals through advanced topics, supplemented by official Python 3.13 documentation PDFs.

12	175+	36
Chapters	Python Files	Reference PDFs

Directory Contents

Root Directory

D:\ML with Python\Python

Root of the Python learning repository. Contains chapter folders, standalone project files, and reference PDFs.

File Name	Type	Size
cmddd.py	PY	944 B
project00.py	PY	454 B
project1.py	PY	2.56 KB

Chapter 12 - Advanced Python - II	DIR	—
python-3.13-docs pdf	DIR	21.72 MB

Chapter 01 — Introduction

D:\ML with Python\Python\Chapter 01

Introductory chapter covering basic Python concepts. Contains a module demo, practice script, and one problem exercise.

File Name	Type	Size
module.py	PY	112 B
practice.py	PY	21 B
Problem1.py	PY	207 B

Chapter 02 — Variables & Data Types

D:\ML with Python\Python\Chapter 02 - Variables & DataTypes

Covers Python variables, primitive data types, operators, type casting, and user input. Includes 4 concept files and 5 practice problems.

File Name	Type	Size
1.Variables and DataTypes.py	PY	287 B
2.Operators.py	PY	427 B
3.typecast.py	PY	106 B
4.inputfunct.py	PY	176 B
problem1.py – problem5.py	PY	156–218 B

Chapter 03 — Strings

D:\ML with Python\Python\Chapter 03 - Strings

Explores Python strings: creation, slicing, built-in functions, and escape sequences. Includes 4 concept files and 5 practice problems.

File Name	Type	Size
1_String.py	PY	77 B
2_StringSlicing.py	PY	398 B
3_Str_Funct.py	PY	702 B
4_escape_seq.py	PY	338 B
problem1.py – problem5.py	PY	135–261 B

Chapter 04 — List & Tuples

D:\ML with Python\Python\Chapter 04 - List & Tuples

Covers Python lists and tuples: creation, methods, and operations. Includes 4 concept files and 5 practice problems.

File Name	Type	Size
1_list.py	PY	248 B
2_list_methods.py	PY	956 B
3_tuple.py	PY	114 B
4_tuple_method.py	PY	282 B
problem1.py – problem5.py	PY	87–518 B

Chapter 05 — Dictionary & Sets

D:\ML with Python\Python\Chapter 05 - Dictionary & Sets

Explores dictionaries and sets: creation, methods, and operations. Largest problem set with 9 exercises. Includes 4 concept files and 9 practice problems.

File Name	Type	Size
1_Dict.py	PY	314 B
2_Dict_Method.py	PY	1.08 KB
3_sets.py	PY	448 B
4_sets_methods.py	PY	1.75 KB
problem1.py – problem9.py	PY	97–616 B

Chapter 06 — Conditional Expressions

D:\ML with Python\Python\Chapter 06 - Conditional Expression

Covers if/elif/else, nested conditionals, and ladder logic. Includes 3 concept files and 7 practice problems.

File Name	Type	Size
1_Conditionals.py	PY	1.00 KB
2_if_elif_else_ladder.py	PY	724 B
3_multiple_if_statements.py	PY	458 B
Problem1.py – Problem7.py	PY	267–1.11 KB

Chapter 07 — Loops

D:\ML with Python\Python\Chapter 07 - Loops

Comprehensive loops chapter covering while loops, for loops, loop control (break/continue/pass), and loop-else. Includes 8 concept files and 10 practice problems.

File Name	Type	Size
01_Loops.py	PY	643 B
02_while_loops.py	PY	412 B
03_list_while_loop.py	PY	186 B
04_for_loops.py	PY	580 B
05_for_loops_for_list_tuple.py	PY	316 B
06_for_loop_with_else.py	PY	222 B
07_break_and_continue.py	PY	425 B
08_for_with_pass.py	PY	182 B
Problem1.py – Problem10.py	PY	156–2.26 KB

Chapter 08 — Functions & Recursion

D:\ML with Python\Python\Chapter 08 - Functions & Recursion

Covers function definitions, arguments, default parameters, and recursive functions. Includes 4 concept files and 8 practice problems.

File Name	Type	Size
01_functions.py	PY	541 B
02_function_with_args.py	PY	521 B
03_default_args.py	PY	426 B
04_recursion.py	PY	480 B
problem1.py – problem8.py	PY	131–473 B

Chapter 09 — File I/O

D:\ML with Python\Python\Chapter 09 - File IO

File input/output: reading, writing, appending, and context managers. Includes 4 concept files, 11 practice problems, several sample text files, and a Tablesm/ subdirectory containing multiplication table outputs (Table of 2–20).

File Name	Type	Size
`01_fileio.py`	PY	962 B
`02_file_write1.py`	PY	213 B
`03_append.py`	PY	152 B
`04_with.py`	PY	382 B
`problem1.py – problem11.py`	PY	167–1.25 KB
`donkey.txt, file1.txt, log.txt, poems.txt…`	TXT	Various
`Tablesm/ (19 multiplication table files)`	DIR	2.38 KB

Chapter 10 — Object-Oriented Programming

D:\ML with Python\Python\Chapter 10 - OOPs

OOP chapter split into two subdirectories: OOP/ (fundamentals) and Inheritance/ (advanced). Combined 24 files covering classes, constructors, inheritance, MRO, operator overloading, and more.

File Name	Type	Size
`OOP/oop.py`	PY	1.46 KB
`OOP/init_const.py`	PY	364 B
`OOP/problem01.py – problem06.py`	PY	469–1005 B
`Inheritance/inheritance.py`	PY	796 B
`Inheritance/multiple_inheritance.py`	PY	1.18 KB
`Inheritance/multilevel_inheritance.py`	PY	914 B
`Inheritance/mro.py`	PY	931 B
`Inheritance/super_constructor.py`	PY	1.03 KB
`Inheritance/operator_overloading.py`	PY	1.29 KB
`Inheritance/property_decorator.py`	PY	840 B
`Inheritance/class_method.py`	PY	1.25 KB
`Inheritance/01_problem1.py – 08_problem8.py`	PY	584–891 B

Chapter 11 — Exception Handling

D:\ML with Python\Python\Chapter 11 - Exception Handling

Covers try/except, try/except/else, try/except/else/finally, and raising exceptions manually. 4 focused concept files.

File Name	Type	Size
exception_handling.py	PY	988 B
raise_exception.py	PY	332 B
try_except_else.py	PY	624 B
try_except_else_finally.py	PY	1.91 KB

Chapter 12 — Advanced Python Part I

D:\ML with Python\Python\Chapter 12 - Advanced Python - I

Advanced topics: walrus operator, type hints, match-case, dictionary merging, global keyword, modules, enumerate, and list comprehensions. Includes 9 concept files and 5 practice problems.

File Name	Type	Size
01_walrus.py	PY	1.03 KB
02_types.py	PY	1.80 KB
03_match_case.py	PY	1.82 KB
04_merge_dict._update.py	PY	869 B
05_global_keyword.py	PY	277 B
06_main.py	PY	68 B
07_module.py	PY	233 B
08_enumerates.py	PY	666 B
09_list_comprehension.py	PY	528 B
01_problem1.py – 05_problem5.py	PY	272–549 B
Table.txt	TXT	120 B

Chapter 12 — Advanced Python Part II

D:\ML with Python\Python\Chapter 12 - Advanced Python - II

Covers virtual environments and lambda functions. Includes a requirements file for package management.

File Name	Type	Size
01_venv.py	PY	1.20 KB

File Name	Type	Size
lambda.py	PY	1.47 KB
Requirements.txt	TXT	722 B

Python 3.13 Reference Docs

D:\ML with Python\Python\python-3.13-docs pdf

Official Python 3.13 documentation in PDF format. Contains 36 files covering the full standard library, language reference, tutorials, HOWTOs, C API, and a bonus handbook. Total size: 21.72 MB.

File Name	Type	Size
library.pdf	PDF	11.11 MB
using.pdf	PDF	2.17 MB
c-api.pdf	PDF	1.73 MB
The Ultimate Python Handbook.pdf	PDF	1.65 MB
reference.pdf	PDF	963.27 KB
tutorial.pdf	PDF	672.32 KB
faq.pdf	PDF	547.84 KB
installing.pdf	PDF	232.71 KB
whatsnew.pdf	PDF	229.31 KB
extending.pdf	PDF	485.42 KB
howto-*.pdf (26 HOWTO guides)	PDF	14–303 KB each
